EDUCATION

Bachelor's degree in software engineering and computer systems

Feb/2022-
Dic/2025

Universidad La Salle Bajío .

WORK EXPERIENCE

Shopify

02/2025 –
06/2025

Software Engineering Intern

- Engineered scalable microservices to decouple complex system architectures, improving maintainability.
- Designed and implemented high-performance APIs (RESTful/GraphQL) for seamless data integration.
- Customized Shopify storefronts using Liquid, HTML, and CSS to enhance user experience.

Movie Listing App

08/2024-
08/2024

Personal Project (React Native, Expo)

- Engineered a cross-platform mobile application enabling users to efficiently browse detailed movie metadata.
- Implemented robust CRUD functionalities to ensure seamless state management and dynamic data handling.
- Designed an intuitive User Interface (UI) prioritizing performance and mobile responsiveness.

Photography Portfolio

07/2023-
09/2023

Freelance Project (HTML5, CSS3, JavaScript)

- Designed and developed a responsive, high-performance website for a photography agency using semantic HTML5 and CSS3.
- Implemented interactive features, including dynamic galleries and custom animations, using optimized JavaScript.
- Ensured cross-device compatibility and accessibility, delivering a visually immersive user experience.

Outro Boxing Studio Website

12/2025-
01/2026

Freelance Project (Next.js, Tailwind CSS)

- Developed a high-performance landing page using Next.js and Tailwind CSS, prioritizing SEO and Core Web Vitals.
- Architected a mobile-first, responsive UI with reusable components to ensure pixel-perfect rendering across devices.
- Integrated direct-to-messaging features (WhatsApp API) to streamline user booking and increase conversion rates.

Fashion Design Portfolio

01/2026 - Present

Freelance Project (HTML5, CSS3, JavaScript)

- Engineered an immersive, high-fashion portfolio featuring a **sticky parallax deck** layout and editorial typography using advanced CSS3.
- Implemented complex UI micro-interactions, including a custom cursor with mix-blend-mode, infinite marquee animations, and "X-Ray" hover effects using Vanilla JavaScript.
- Architected a fully responsive mobile experience with a custom navigation system (hamburger menu) and optimized transitions for high-performance rendering.

SKILLS

Development	JAVASCRIPT, REACT, NEXT.JS, REACT NATIVE, DJANGO, LIQUID (SHOPIFY), TAILWIND CSS, HTML5
Data & BI	TABLEAU CLOUD, SQL, KPI ANALYSIS, BALANCED SCORECARDS
Tools	GIT, GITHUB, FIGMA, EXPO, VERCEL, VS CODE
Languages	Spanish (Native) English (Advanced)

PERSONAL SKILLS

- Hard worker.
- Teamwork.
- Good listener
- Flexible
- Self motivated
- Highly organized and efficient
